Advantages of Elettrico Proposal

Quality and Services

Company Overview

Elettrico Lighting is a large supplier of LED lighting fixtures, Drivers and automation systems for indoor and outdoor use.

Furthermore, Elettrico handles the complete process of designing, supplying, and installing all types of lights, such as decorative, general, external, landscape, sports courts and street lighting.

Company Overview

Street Lighting

In the past few years, Elettrico Lighting started providing a wide range of street light poles such as conventional, classic, decorative, and modern light poles.

In 2020, Elettrico moved to a new level and started providing decorative solar light poles with high warranty period.

Besides, it can also provide a complete solution from design and lux calculation to the pole lights supply and installation.
